## DENTACLEAN MIXING FLUID FOR PUMICE POWDER

- Protects against germs. Dentaclean mixing fluid for pumice powder
- Remains moist and free of germs for two to three weeks without having to be remixed.
- Contains skin-care additives to protect employees' hands.
- Contains natural odours which still smell fresh after several weeks.
- Mixed polish adheres to the brush and restoration better so that the pumice splatters less. This saves time when polishing as the pumice slurry does not have to be applied repeatedly.
