

VITA Easyshade® Advance 4.0

\$350
CASH
REBATE

Total Shade Control in the Palm of Your Hand...

The VITA Easyshade Advance 4.0 delivers the fastest, easiest way to measure tooth shades under any lighting condition. Easyshade Advance 4.0 gives you the ability to conquer the trickiest shade challenges all day, every day, instantly and accurately. Now you can measure natural teeth, check restoration shades and track bleaching progress with the push of a button.

Now with a \$350 Cash Rebate

Simply purchase your VITA Easyshade Advance 4.0 between April 1 – September 30, 2014, register and attend a live shade management webinar at vident.com/courses and we will mail you a \$350 check after webinar completion.

Regular Price \$2378.⁰⁰
Special \$1995.⁰⁰
Total Savings of \$730.⁰⁰

\$350 rebate will be issued as a check to the address on this form following completion of a Vident online shade certification training webinar. For details visit: www.vident.com/courses and click on the USA or Canada section; the VITA Easyshade Advance 4.0 serial number must be entered in order to join a webinar and receive the \$350 rebate.

Technical Corner

Itsoclear

HIGH QUALITY CRYSTAL CLEAR CLASP

Itsoclear provides you with the ability to produce and repair a clasp in under 4 minutes with a cosmetic appeal unlike any other clasp.

Itsoclear's superior difference stands out from all the rest

- Saves bench time producing a higher quality dental esthetic clasp that your customers will appreciate while increasing your profit.
- Crystal clear, will not lose its clarity
- Non-abrasive
- Easily adjustable
- No injection machines or hand-held injectors required
- Perfect for new partial dentures as well as repairs and replacing metal clasp

4 easy steps to create your Itsoclear clasp in under 4 minutes

- Warm clasp by lightly waving it over flame. (WARNING: Do not overheat the clasp)
- Lightly pass 3 prong plier over flame. (WARNING: Overheating plier will cause indentation in clasp)
- Adapt accordingly around tooth by rewarming the 3 prong plier as needed.
- After clasp is formed around tooth begin to create retention.
- Form retention by bending a loop at opposite end of clasp to hold in acrylic.
- Once retention is formed the clasp is ready to be set in place on frame.
- Secure clasp on frame by using glue and accelerator.
- Finally, place acrylic under retentive area and above the class so that the clasp will remain in position.

Your partial denture is now ready to be processed as normal.

REPAIRS or REPLACEMENTS: Cut groove where clasp is to be formed and cut a deep groove in tentative area. Process as normal.

1009150 - Clear Universal Clasps, 6/Pkg.

Recommended use on pre-molar/anterior teeth

1009151 - Clear Molar Clasps, 6/Pkg.

Recommended use when stronger reinforcement is needed

Available in the U.S.

6th ANNUAL SPRING CLASSIC GOLF TOURNAMENT

The Briars Golf Club
127 Hedge Road, Sutton West, ON L0E 1R0
Friday, June 6th, 2014 @ 1pm Tee-off

The Briars Golf Club is located just one hour from Toronto on the southern shores of Lake Simcoe. As you wind your way along historic Hedge Road, you immediately feel relaxed and understand the allure of this location. Two Canadian design legends have combined to bring you a delightful dose of golf at its best. Stanley Thompson carved out the original nine holes in 1922. Robbie Robinson integrated a second nine in 1971, creating a seamless routing that may look fairly innocuous on paper, but will be appreciated for its subtle charms. The Briars is the epitome of the old-style course.

To Register Call: 1.800.268.4442

\$140/person
*Includes 18 Holes,
Cart, Dinner, Prizes & More!
