# Rodin® SOFT RELINE

Compatible with 3D, PMMA & Acrylic Denture

NEW!

Rodin® Soft Reline features a unique silicone-based formulation that improves the fit and enhances the performance of both removable and fixed full or partial dentures. Tailored for superior bonding and tear strength, it is the ideal reline solution for 3D printed polymer bases, as well as PMMA milled and traditional acrylic materials.

## Benefits & Features

- Exceptional Adhesion and Tear Strength
- Ease of Workflow
- Superior Performance
- Esthetic and Patient Comfort

**REF** 24006 Soft Reliner Kit

## Components

### VPS Adhesive Primer & VPS Release

VPS Adhesive boasts superior adhesion, thanks to its innovative formulation that penetrates deeply into denture materials to form a resilient bond. Meanwhile, VPS Adhesive Release dissolves tough adhesives without residue, ensuring a comfortable and hassle-free cleaning experience for users.

10mL VPS Adhesive Primer **REF** 24008

10mL VPS Release **REF** 24009

### VPS Reline Cartridge

Unique silicone-based reline formulation of VPS Reline Cartridge improves the fit and enhances the performance of both removable and fixed full or partial dentures. Its physical properties make it the ideal solution for 3D-printed polymer bases, as well as PMMA milled and traditional acrylic materials.

**REF** 24007 50mL Reline Silicone Cartridge

**REF** 240013 Wide Mouth Mixing Tips Refil, 48/pk

### Polishing Brush & Tapered Stone

Specialized polishing tools are included to complement the needs of denture maintenance. The polishing brush assists in refining the reline surface to a flawless finish, while the tapered stone bur shapes materials with precision.

**REF** 240010 Tapered Cone Finishing Stone

**REF** 240011 Brown Polishing Wheel

# The future is *TiSi.snap + retention.sil*

Rest phase

Masticatory phase

Post-masticatory phase

scan me!

retention.sil cushions  
masticatory force allowing  
gingiva to return to the rest  
position

- Patient can continue using the present denture while enjoying better retention and physiological (natural) chewing sensation.
- Patient does not need to come to the clinic every three months to change the locator matrices.
- The handling of TiSi.snap+retention.sil is consistent with the use of soft denture liners. Thus allowing the clinician an optimal use of chairside time.
- TiSi.snap comes in different heights allowing easy maneuvering in the mouth depending on available interarch space.
- retention.sil comes in 3 different resilience hardnesses for optimal retention

## retention.sil set

# MULTISIL-SOFT THE PERMANENTLY SOFT RELINING SYSTEM

## RELIABLE BONDING

The bonding agent is matched to the bond of denture resin and silicone.

## READY-TO-USE

The flow characteristics allow rapid processing and applying through the dosing device.

## GRINDABLE

Silicone burs with a special cutting geometry simplify grinding of functional margins and transition zones.

## PLAQUE-RESISTANT

Multisil sealing agent avoids the accumulation of plaque to the surface and penetration of bacteria into the surface.

## PERMANENTLY ELASTIC

Prolonged comfort of wear is a distinctive feature of the material.

EXCEPTIONAL  
QUALITY

## TEAR-RESISTANT

Highly cured materials create exceptional wear resistance and special tear resistance.
